SUMMARY REPORT
FT 950-E

August 1964

FOR RELEASE
October 19, 1964

EXPORT TRADE BY COUNTRY

The Bureau of the Census, Department of Commerce, announced today that the decrease in United States exports of domestic and foreign merchandise, including Special Category commodities, and unadjusted for seasonal variation, from $2,114.1 million in July to $1,969.8 million in August[1], reflected lower levels of exports to all areas except Canada. The changes in dollar values of area totals from July to August were as follows: Western Europe, from $704.7 to $642.7 million; Latin American Republics, from $308.2 to $303.2 million; Canada, from $376.7 to $388.9 million, and all other countries, from $724.5 to $635.1 million.[2]

With Special Category commodities excluded, exports of domestic and foreign merchandise dropped from $1,926.2 million in July to $1,804.1 million in August. This loss resulted from decreases in exports to O.E.C.D. countries in Europe, from $582.7 to $529.6 million; E.E.C. (European Economic Community) countries, from $352.7 to $317.5 million; Soviet bloc countries in Europe, from $21.5 to $8.5 million; Japan, from $146.8 to $134.8 million; Latin American Republics, from $300.3 to $297.1 million; and all other countries (except Canada), from $486.8 to $437.6 million. Exports to Canada advanced from $365.8 to $380.3 million.

During the period decreases were reported in exports to the continents of Europe, Asia, and Africa, while increases were reported in exports to South America, Australia and Oceania, and North America. Exports to Europe fell sharply from $626.5 million in July to $554.3 million in August, owing in part to decreases in exports to the following countries: Italy, from $67.7 to $49.7 million; Spain, from $25.8 to $16.9 million; France, from $59.0 to $51.3 million; Yugoslavia, from $18.4 to $11.0 million; The Netherlands, from $78.2 to $73.1 million; Union of Soviet Socialist Republics, from $7.3 to $2.8 million; and Norway, from $9.0 to $5.2 million. The drop in exports to Asia, from $439.1 to $376.4 million, was attributed largely to declines in exports to India, from $87.6 to $53.1 million; Japan, from $146.8 to $134.8 million; Israel, from $18.4 to $11.2 million; and Pakistan, from $40.4 to $34.3 million. Exports to Africa declined from $98.7 to $93.5 million owing to small decreases in exports to most of the countries of this continent. Counterbalancing this general trend, however, was an increase in exports to the United Arab Republic (Egypt), from $14.8 to $20.8 million.

The gain in exports to South America, from $166.9 million in July to $175.6 million in August, resulted largely from an increment in exports to Brazil, from $26.6 to $35.5 million. The rise in exports to Australia, from $50.8 to $57.6 million, accounted for the increase in exports to Australia and Oceania, from $60.9 to $68.6 million. Exports to North America rose only slightly, from $534.1 to $535.6 million. However, there was a sizable increase in exports to Canada, from $365.8 to $380.3 million, which was offset in part by a decrease in exports to Mexico, from $88.4 to $81.6 million.

[1]See the August 1964 issue of Report No. FT 900-E for seasonally adjusted figures on total exports, excluding Military Assistance Program--Grant-Aid shipments. Seasonally adjusted data are not available for total exports including Military Assistance Program--Grant-Aid shipments or by country of destination.

[2]See asterisk (*) footnote on page 5 of the tables.

EXPLANATION OF STATISTICS

COVERAGE: Export statistics include government as well as nongovernment shipments to foreign countries. The export statistics, therefore, include Department of Defense Military Assistance Program--Grant-Aid shipments (for which separate figures are shown in the footnotes of this report), Mutual Security Program economic assistance shipments, and shipments of agricultural commodities under P.L. 480 (The Trade Development and Assistance Act of 1954, as amended) and related laws. (The separate information which is available on exports under P.L. 480 and related laws may be obtained from the Economic Research Service and the Foreign Agricultural Service of the Department of Agriculture.) Shipments to United States armed forces and diplomatic missions abroad for their own use are excluded from export statistics. United States trade with Puerto Rico and United States possessions is not included in this report, but the export trade of Puerto Rico with foreign countries is included as part of the United States export trade. Merchandise shipped in transit through the United States between foreign countries, not entered as imports, is not included in export statistics.

COUNTRY DEFINITION: Although the country of destination is defined as the country of ultimate destination or the country where the goods are to be consumed, or further processed or manufactured, the statistics do not always reflect this definition, as the shipper may not know the ultimate destination of the shipment. In such cases, the shipments are credited to the last country, as known to the exporter at the time of shipment from the United States, to which the goods are to be shipped in their present form. It follows, therefore, that the statistics will tend to be overcounted for shipments to transshipment or merchanting countries and undercounted for other countries. As explained in the footnotes to the table, exports of Special Category commodities are not included in any of the published country totals, for reasons of security.

VALUATION: The valuation definition used in the export statistics is the value at the seaport, border point, or airport of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Transportation and other costs beyond the United States port of exportation are excluded. None of the values have been adjusted for changes in price level.

RELIABILITY: The statistics presented in this report are based partly on sample data and therefore are subject to sampling variation that may cause them to differ somewhat from the results which would have been obtained from processing all export documents. For the figures shown in this report, the sampling variability can be ignored since the probable variability due to sampling is either less than $50,000 (the largest variation from rounding of figures) or less than a trivial percentage of the individual totals shown.

In addition to the effects of sampling variation and the difficulties described above under COUNTRY DEFINITION, the data in this report are subject to errors from such sources as the carry-over of data from month to month, errors in reporting or processing, the estimation of shipments valued under $100, and the omission of parcel post shipments valued under $50. Although the effect of such errors on the rounded totals in this report is probably small, the possibility of inaccuracy should be taken into account, particularly in using figures of relatively small magnitude.

Further information regarding coverage, valuation, compilation procedures and precision of export data is contained in the foreword of Reports No. FT 410 and FT 420. For complete statement, see foreword in Foreign Commerce and Navigation of the United States.

USCOMM-DC

For sale by the Bureau of the Census, Washington, D.C. 20233. Price 10¢ per copy. Annual subscription (FT 900, 930, 950, 970, 975, 985, and 986 combined) $5.00.

*Incomplete transmittals of Shipper's Export Declarations from an individual Customs port have resulted in the undercounting of January-July 1964 export data by a total of approximately $55 million and calendar year 1963 data by approximately $65 million. Earlier years are affected by smaller amounts. Undercounting in the individual months ranges from $6 to $10 million for January-July 1964 and from $3 to $8 million for 1963, or less than one-half of one percent per month. The countries most affected, and which accounted for about $50 million of the approximately $55 million total during the January-July 1964 period, were Colombia, Brazil, Netherlands, France, West Germany, Italy, Japan and the Republic of South Africa. Corrective action has been taken to include shipments on a current basis beginning August 1964 and revisions will be made for the prior periods at a later date. It has been verified that import documents from the same port were transmitted regularly on a current basis and no problem of undercounting in the import statistics is involved. **"Soviet bloc countries in Europe" beginning June 1964. In issues of this report for January-May 1964, summary totals were shown for the entire Sino-Soviet bloc grouping of countries. †Indicates less than $50,000. [a-e]Countries included in each area are identified with the same literal footnote as the area. [1]For definitions of countries as used in this report, refer to current edition of Schedule C, Classification of Country Designations Used in Compiling the United States Foreign Trade Statistics. [2]Country detail is not reported in the export statistics for Special Category commodities for security reason. For certain areas, export totals include Special Categories, as shown at the beginning of the table. Export figures for other areas and countries represent total exports less exports of Special Category commodities. See the January 1961 issue of Report No. FT 410 for a list of Special Category commodities. [3]Includes $73.1 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($31.6 million to Western Europe). [4]Includes $74.8 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($20.4 million to Western Europe). [5]Included $596.1 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($249.4 million to Western Europe). [6]Includes $104.4 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($33.8 million to Western Europe) [7]Includes $104.4 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($33.8 million to Western Europe). [8]Includes $666.1 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($215.8 million to Western Europe). [9]As explained in the April 1958 issue of Foreign Trade Statistics Notes, this is an arbitrary category established with April 1958 statistics to cover certain shipments to unidentified countries in Western Europe. [10]Country designation "Malaysia" established January 1964. Consists of the former Federation of Malaya, and the State of Singapore, Sarawak and North Borneo fromerly included under "State of Singapore, British Borneo." [11]Effective January 1964, Indonesia includes West New Guinea (formerly named Netherlands New Guinea and include under "Southern and Southeastern Asia, n.e.c.") [12]Effective January 1964 includes Brunei, formerly included under "State of Singapore, British Borneo." [13]Country designation established January 1964. Formerly included with other countries under "Western Africa, n.e.c." [14]Country designation established January 1964. Formerly included with other countries under "British West Africa and Sierra Leone." [15]Country designation established January 1964. Formerly included with other countries under "Western Equatorial Africa, n.e.c." [16]Country designation established January 1964. Formerly "British West Africa and and Sierra Leone." [17]Includes Mali, Niger, Upper Volta and Dahomey for all periods shown. Effective January 1964, also includes Chad and Congo (Brazzaville) formerly included under "Western Equatorial Africa, n.e.c." Prior to January 1964, "Western Africa, n.e.c." also included Togo, Guinea, Senegal, Ivory Coast, and Mauritania, which are shown separately effective January 1964. [18]Country designations "Congo (Leopoldville)" and "Burundi and Rwanda" established January 1964. These areas formerly included under the designation "Republic of the Congo" which became obsolete effective January 1964. [19]Country designation established January 1964. Formerly included with other countries under "British East Africa and Tanganyika." [20]Country designation established January 1964. Formerly Federation of Rhodesia and Nyasaland.
